Roshmeet Chakraborty

Product Designer — UI-UX Designer — Interaction Designer

Kolkata, India — contact.roshmeet@gmail.com — Portfolio — LinkedIn

Professional Summary

Product Designer with experience designing SaaS, data-driven, and early-stage products. Strong in UX research, interaction design, and design systems, with hands-on experience translating complex requirements into usable and scalable design solutions. Experienced working cross-functionally with product managers, engineers, and stakeholders to deliver outcome-driven user experiences under real-world constraints.

Core Skills

Product Design: End-to-End Product Design, UX Strategy, UI Design, Interaction Design, Design Systems, Accessibility-First Design, Responsive & Adaptive Design

User Research: User Research, Usability Testing, Heuristic Evaluation, Information Architecture, User Flows, Journey Mapping

Product Thinking: Problem Framing, MVP Definition, Feature Prioritisation, Design Trade-off Analysis, Systems Thinking, Requirements Translation

System & Data UX: Complex Workflow Design, Dashboard UX, Multi-Role Interfaces, Permission-Based UX, Error-State Design

Collaboration: Cross-Functional Collaboration, Stakeholder Alignment, Agile Design, Design-to-Development Handoff

Tools: Figma, FigJam, Adobe XD, Miro, Notion, Jira

Professional Experience

Product Lead   Jun 2024 – Present
COSMEON

- Led end-to-end product definition from problem framing to system architecture and phased roadmaps
- Translated complex technical and research inputs into structured product requirements and UX flows
- Conducted feasibility analysis, prioritisation, and trade-off evaluation under resource constraints
- Worked across product strategy, UX, and stakeholder alignment to support execution discipline

Product Designer / UI-UX Designer   May 2024 – Dec 2024
Reuters

- Designed and refined user interfaces for internal and external digital products
- Collaborated with product managers and engineers to translate requirements into usable design solutions
- Contributed to usability, accessibility, and visual consistency across workflows

Product, UX & Engineering Consultant   Aug 2023 – May 2025
Independent / Multiple Clients

- Delivered UX and product design for SaaS, e-commerce, and early-stage platforms
- Owned requirements analysis, user flows, wireframes, and UI design across projects
- Collaborated with cross-functional teams under tight timelines and evolving constraints

Selected clients: Webyapaar Solutions, Digi Groww, iNeuron.ai, Zapvi, Superteams.ai

Visual System Designer   Aug 2023 – Oct 2024
Notion

- Contributed to visual system design and UI consistency for product features

- Worked on structured layout systems and component-level design improvements

Junior Product Designer   Sep 2023 – Jan 2024
Red Hat

- Designed UI components and interaction patterns for learning and platform experiences

- Worked within established design guidelines and cross-team collaboration workflows

Projects

BiPay – Payroll & Performance Management System   Web — Figma

- A transparent payroll and performance visualisation platform that eliminates fragmented insights and reduces bias through role-agnostic, audit-friendly data views

Webyapaar CRM – Agent & Client Lifecycle Management   Web — Figma

- A multi-sided HR CRM that unifies agents, candidates, and clients into a single lifecycle workflow, improving visibility, accountability, and coordination

Aire   Web — Figma

- An end-to-end hiring platform that replaces opaque ATS filtering with structured candidate signals, ensuring fair visibility and streamlined hiring decisions

BraillePay – Accessible UPI Payment System   Mobile — Figma

- An inclusive digital payment solution for visually impaired users using live object detection, text-to-speech, and haptic feedback for safe, independent transactions

Pro Fitness – Behaviour-Centric Health Monitoring   Mobile — Figma

- A behaviour-first fitness tracking app that reduces metric overload by prioritising habit consistency, recovery patterns, and long-term engagement

Dash Stack: ASeller Management System for Small E-commerce Businesses   Web — Figma

- A simplified seller dashboard that removes platform complexity and plugin dependency, enabling small businesses to manage listings and inventory efficiently

Education

Master's in Technology Management
Dual Degree Award - Asia Pacific University of Technology & Innovation, Malaysia
De Montfort University, United Kingdom

Bachelor's in Computer Applications
Manipal University Jaipur
